STAT NOTE FOR:

Dave:

STAT We broke the news to the other
STAT day that, as of 1 July 1975, the History Staff
will consist of one employee, i.e.,
Our priority of concern is first the people
involved. Attached are my rough notes (very
rough) of the people presently with Walt and
what appears to be their status. Walt is going
to tell them collectively what the decision
has been and tell them we will work individually
with each person to see what can be done.
Would you please establish contact with Walt
so that you can follow through with him and
the people involved. If you wish to review
these notes with me, I thoroughly understand
why.
